- WORK EXPERIENCE
- Junior Software Developer | Jan 2022 – Mar 2024

Inter-Enterprise Solutions Sdn Bhd

 - Wrote, debugged, and troubleshooted code and software. 100+ support tasks resolved to date
 - Utilized version control systems to manage code revisions, branch management, and code merges.
 - Ensured software adheres to best security practices to protect against vulnerabilities like SQL injection and Cross-Site Scripting.
 - Communication between developers and being a team player to ensure smooth development and understanding goals and requirements.
- Software Engineer Intern (ITO Division) | Sep 2021 – Nov 2021

Inter-Enterprise Solutions Sdn Bhd

 - Optimized SQL queries to improve webpage load times by 50%
 - Rapidly adapted to learn Adobe ColdFusion and SQL to work and deliver on existing projects

EDUCATION

42 Malaysia | 2025 – Current

Common Core (Milestone 3)

Sunway University | 2018–2021

Bachelor of Science in Computer Science (GPA: 3.36)

- PROFESSIONAL DEVELOPMENT
- K-Youth Development Programme — Khazanah Nasional x 42 Malaysia

Facilitator (Cohort 1)/ Participant (Cohort 2) May 2026 – July 2026

 - Completed an intensive 1-month technical programme focused on industry-ready skills in data engineering, backend development, AI integration, and application deployment
 - Developed ETL pipelines and applied Medallion Architecture for structured data ingestion, transformation, and processing.
 - Built backend services using FastAPI and explored AI prompting and MCP tools for AI-powered applications.
 - Containerized and deployed frontend and backend services using Docker.
 - Designed and developed an Intelligent Document Processing (IDP) platform as a one-week capstone project, integrating the technical concepts learned throughout the programme into an end-to-end application.

**TECHNICAL
SKILLS**

Programming Languages – Java, Python, C
Frontend – HTML, CSS, JavaScript
Backend – FastAPI
Version Control – Git, Github, TortoiseSVN
Database – Firebird, PostgreSQL
DevOps – Linux, Docker
Cloud – AWS fundamentals
Tools & Platforms – Docker, DBeaver, Postman
AI / LLM Tools – Ollama, Gemini, Claude, OpenCode

LANGUAGES

English, Chinese, Bahasa Melayu
